Documentation of NW MAC Decisions

Decision 06
July 24, 2018

| National Preparedness Level | Northwest Preparedness Level |
|-----------------------------|------------------------------|
| 4 | 4 |

Strategic Intent:

1. Prepare for additional large fires in southwest, south central, and central Oregon likely to result from lightning currently moving through the Geographic Area.
2. Monitor additional resource needs on existing large fires as a result of the continued degradation of the fire environment.
3. Monitor resource availability across the remainder of the Geographic Area to determine response effectiveness for increasing initial attack, and realign resources as necessary.

PNW Incident Priorities (*set once per day*):

| <u>Priority</u> | <u>Fire</u> | <u>Unit</u> | <u>IC</u> | <u>Rationale</u> |
|-----------------|----------------------|-------------|-----------------|--|
| 1 | Initial Attack | | | Initial Attack always first priority. |
| 2 | Garner Complex | OR-712S | Cline/Magers | Hundreds of residences at level III. Taylor fire moving south. Unified Command with OSFM. |
| 3 | South Umpqua Complex | OR-UPF | Sheldon/Thorton | Level III evacuation ordered for Tiller Trail Highway due to active fire behavior to the south of the Snowshoe Fire. |
| 4 | Natchez | OR-RSF | Livingston | Potential threat to the community of Happy Camp. Opportunity to minimize fire footprint. |
| 5 | Sugar Pine | OR-RSF | Gales | Sugar Pine and Goodview have exceeded fire behavior expectations, breaching most containment lines requiring a change in strategy and an additional DOA. |
| 6 | Hendrix | OR-RSF | Harrod/Buckman | Good progress being made on containment, level III evacuations still in place, threat to Ashland watershed. |
| 7 | Timber Crater 6 | OR-CLP | Goff | Threat to Hwy 138. Progress on securing three flanks. |
